## **CONTEST SCHEDULES**

## **UNLOAD / LOADING**

**UD Arena / Nutter Center** - Please be sure to remove all buses and trucks from the unloading/loading lot within 45 minutes of the conclusion of your performance. Your group will receive a golden ticket upon arrival in the unload/load lot with the specific time your vehicles must be moved.

**Cintas Center** - Floors and props may not be unloaded until 90 minutes prior to your performance time.

**BB&T Arena** - Buses and equipment trucks must be moved within 1 hour of the conclusion of the color guard's performance. The Furniture Fair parking lot will be used as bus/truck overflow. There will be a shuttle that runs between the Furniture Fair parking lot and the arena.

At all venues, each color guard must designate a representative to stay with floor/props prior to competition at all times.

## **UD Equipment Warm Up Tent**

**New for 2019**, the warm-up area is being relocated from the concession area to a tent. This has to do with the UD Arena remodeling project which will be completed in 2020. The area used before will actually decrease in size from previous years. This large tent will provide more space and height for color guards to utilize for their performance warm-up. More information and pictures will be forthcoming once the tent is constructed the week before championships. WGI will share that information with all color guards prior to your arrival in Dayton.

## **FINAL NOTE**

Our ability to host championship events at these facilities rests in no small part on the conduct of the students, staff and support personnel of the color guards that participate in this event. Please remember that directors and staff are responsible for the behavior of all the people connected with their organization at all WGI contest sites and practice facilities. Instruction regarding proper conduct and expectations should be a part of the overall educational and preparation process. It is crucial that WGI can confidently host this World Championship in these facilities without fear of damage to the building, disrespect for their property or other inappropriate behavior.

We would like to remind all managers, instructors and performers that during this time of increased security everyone should comply with all directives of any University of Dayton Arena, Wright State University's Nutter Center, Cintas Arena, and BB&T Arena personnel. If an instance occurs where building personnel instruct you or your performers to do something, please follow their instructions. If that is something contrary to information you have received, please seek WGI staff to resolve the situation.

***After one of the most exciting regional seasons in recent memory, we're sure that the WGI World Championships will conclude with an unbelievable display of creativity, passion, and excellence. On behalf of everyone at WGI, we'd like to extend our best wishes for a safe journey to Dayton. We'll see you on the floor!***

#### **4.120 Sound Policy (Color Guard)**

- All color guards should do a sound check at the designated times provided in the contest information packet to ensure the playability of any device or CD. Color guards should check the soundtrack at multiple places in the music to verify playability of any device
- Color guards should still do a sound check if they are using the WGI Music Upload in CompetitionSuite to ensure everything is correct.
- Color guard is responsible for providing the method that the music will be played, e.g. CD, MP3, computer, etc. Each color guard should have two methods to play their soundtrack in the event one does not work.
- Color guard must provide their music in a timely manner to the designated sound operator. Any delay in providing music is the responsibility of the color guard.
- Color guards using the Music Upload process through CompetitionSuite should have a backup using another device type such as an MP3 player, iPhone, or CD.
- Color guard must have a designated person at the sound table to operate any device provided to play music such as MP3 players or computers. Guard's representative is responsible to set up and play device. If a CD is provided, the color guard representative must instruct the sound operator as to what track or other relevant information is needed to start the music when directed by the contest Timing and Penalty judge or after the color guard's introduction.
- If the color guard has an issue with the music such as music is too soft, it begins in the wrong place or skips, the color guard's representative must make the decision to stop the music and tell the operator to stop the music. If the color guard representative chooses not to stop and the color guard completes their performance, the color guard will not be offered an opportunity to perform again.
- Interval timing will continue as the color guard resets and begins again. The Contest Administrator has the sole discretion in waiving any timing penalty due to the restart. If the stoppage is due to faulty sound equipment, operator error or an unexplained reason, overtime penalty may be waived.
- Issues related to the equipment provided by the color guard, quality of the CD or the color guard's representative error (using wrong playlist on MP3, etc.) will result in the actual interval timing being used and penalties, if any, being assessed.
- Volume direction must come from the color guard representative at the sound table. Direction will not be taken from the audience viewing area or across the floor. Final volume discretion is given to the sound operator based on their equipment and the Chief Judge who ultimately determines an appropriate volume level.
- The color guard representative may provide direction to the sound operator during the performance regarding equalization.
- It is the responsibility of the color guard to provide their music for each performance and to ensure that their soundtrack is working appropriately. CDs may not be left at sound table between performances.
- Under no circumstances will verbal abuse of the sound operator be tolerated. Penalties will be assessed per current WGI rules
