

IMPORTANT REMINDER

WGI Sport of the Arts is committed to building a community where participants can learn together in an atmosphere free of emotional, physical, and sexual misconduct.

As a reminder, effective for the 2022 season, all adult instructional and administrative staff having regular contact with or authority over participants of any group participating in any WGI event must complete the "SafeSport™ Trained" Abuse Prevention course.

Directors of groups should maintain a copy of each individual's certificate. It is not required to submit these to the WGI office; however, you should maintain these certificates on file should your group be selected for a random audit.

Click on the following for "SafeSport™ Training" instructions.
