## Percussion World Championships Competition Area Nutter Center | Dayton, OH

All WGI contest sites must have a minimum of seventy feet by one hundred feet (70' x 100') to accommodate a "safety zone" of five (5) feet from any spectator seating. This will ensure the minimum sixty-foot by ninety-foot (60' x 90') competition area within the minimum seventy feet by one hundred feet (70' x 100') of the contest site. If no spectators are seated on the left and right sides, then the safety zone will be eliminated on the left and right sides of the competition area and extend to the walls.

The competition area at this event measures 72' x 106'. All performing groups must be prepared to perform within that area. Floors (tarps) may not extend into the safety zones per rules found in the WGI Adjudication Manual and Rulebook.
