

WGI WINDS CONTEST RULES

2025

WGI discourages independent groups from utilizing high school students who were previously enrolled in an active high school program and have not yet graduated.

WGI also discourages independent groups from utilizing participants who have outstanding monies owed to a previous group.

WGI strongly recommends that participating groups and their directors/staff use the utmost caution and forethought in planning and use of props that might place participants (and others) in potential danger during assembly or use.

WGI strongly recommends that all participants wear protective footwear while outside the performance area.

1.0 ELIGIBILITY

1.1 Winds groups in the Independent Class may compete with participants of any age.

1.2 All participants of any winds group competing in any scholastic class must have approval for participation in any WGI-sanctioned event by the administration of the sponsoring school(s) or educational institution.

1.2.1 Types of scholastic winds groups are defined as follows:

Single School. A winds group whose total membership are students from the same school, schools that feed directly into that school, or home-schooled students that reside within the school district boundaries. The winds group shall submit the Single School Participating Master Group Agreement signed by the authorizing school principal or administrator and file with the WGI office.

Combined Schools. The purpose of the combined schools policy is to encourage participation from scholastic groups that may have limited resources while keeping the integrity of the scholastic classes intact. Combining schools for the purpose of competitive advantage is contrary to this policy and will not be approved.

A winds group in any scholastic class may apply for approval to combine students from multiple schools within a school district under the following guidelines:

- Multiple groups within a school district may be approved to combine on a case-by-case review by WGI. In very rare cases, schools from different districts may combine if approved.
- If approved, combined school groups may be required to compete using a school name.
- Scholastic winds groups utilizing students from parochial, vocational, or charter schools, must apply for approval under combined school guidelines.
- All winds groups shall submit the Combined Schools Participating Group Master Agreement signed by the district superintendent and file with the WGI office.

- Winds groups applying to combine students from multiple schools within a school district must apply for approval by December 1.
 - WGI will have the final determination on whether a winds group will be permitted to combine students from multiple schools. If application for combined group is denied, the winds group has the option to either not include students from other schools or compete in an independent class.
- 1.3 Winds groups must have a minimum of five (5) participants at any time including one optional member conductor.

PENALTY: Disqualification – any winds group violating any requirements in the ELIGIBILITY section shall be disqualified from that contest and must forfeit any scores, placements or awards

Winds groups are permitted to utilize the entire designated competition area for their performance. All participants must be in the designated competition area when performance time begins, except an optional conductor. Depending on the performance venue, WGI will authorize additional competition area space whenever possible and include that information in the diagram (footprint) to be made available to all competing marching winds groups to identify the competition area. No competition area may exceed the maximum size of competition area (72’ x 106’) offered at the world championships. While the competition area will be increased whenever possible, all marching winds groups must be prepared to perform within a minimum sixty-foot by ninety-foot (60’ x 90’) competition area.

This will ensure the minimum sixty-foot by ninety-foot (60’ x 90’) competition area within the minimum seventy feet by one hundred feet (70’ x 100’) of the contest site.
- 2.3 Once performance timing begins, no participant may enter the safety zone. All equipment and props (including all sound equipment) must be grounded within the competition area except during setup and teardown. No props or equipment may be staged within the safety zone and no choreography outside the competition area, including the safety zone, is allowed. An optional conductor may be located in a designated place in the stands. An optional conductor may be located in the competition area or in a designated place in the stands, usually in the center aisle. If there is no aisle, the Contest Administrator will designate a space in the seating area. Conductor is limited to one (1) individual. The conductor, if located in the stands, must remain for the entire performance. No personnel may cross the front sideline once the performance has begun.
- 2.4 The front boundary line shall be considered to extend the full width of the competition area and shall be clearly marked at a minimum of five (5’) feet from the first row of spectator seating.
